

Description

Our practice is driven by a team of dynamic professionals providing a business advisory support, as well as processing the usual compliance matters. We are deeply involved in real-life business issues, problems and solutions. We recognise that attracting, retaining and developing great talent allows us to effectively support and advise our clients, ensuring our mutual success.

This is a great opportunity for an experienced and talented accountant with a strong practice background to work for an expanding modern Chartered Certified Accountant's practice.

The Role

The role of Senior Accountant has come following the restructure of the accounts team which has identified a requirement for a talented qualified accountant, looking for their next step in their career.

As a qualified ACA, ACCA, CIMA accountant, you will be supporting the senior management team in a number of adhoc duties, which ensure your role will not sit in the mainstream, but will transcend responsibilities across Financial and Management Accounts.

Duties will include:

- Preparation, reviewing and iXBRL filing of financial statements from manual or computerised records.
- Carry out audits – max 15-20% of total workload.
- Taxation computation preparation and online filing.
- Client financial and management accounting.
- Practice management – allocating workload to junior staff
- Mentoring and guiding of junior staff.

This is a challenging and exciting role that would best suit a talented qualified accountant who has the ability to communicate at a high level, build relationships, develop processes, and understand the necessity of accounting techniques in an internal stake-holding facing position.

Your Profile

- Able to autonomously prepare draft financial accounts of all types of entities to a final completion with all basic queries resolved.
- The successful candidate will be able to prepare tax computations of all types of entities with all basic queries resolved.
- Able to meet strict deadlines; ability to work under pressure and on own initiative.
- The work is varied and interesting as it involves meeting and working closely with clients and their businesses. There are excellent prospects for the right candidate to further their career.
- You should have a minimum of three years accounting experience preferably in an accounting practice. You should be familiar with accounting software such as Iris, Sage & Xero and also be committed to providing excellent customer service.

This position is best suited to a talented qualified accountant who has the ability to communicate at a high level. We are particularly keen on attracting talented individuals who are looking to develop their careers and grow with the company as they look to grow.

Package

This role offers a competitive salary, CPD training, career progression and an opportunity to work in a friendly and supportive team.

Malick & Co are committed to equal opportunity and diversity. Suitable candidates with equivalent qualifications and/or more/less experience can apply.
